EXPERIENCE

Uptick Marketplace (Student Startup for an Analytics Driven Marketplace) – *Lead Developer*
FALL 2018 - PRESENT

- Led and trained a team of developers in using the MERN stack (MongoDB, Express.js, React-Native, Node.js).
- Developed server-side logic and ensured responsiveness to requests (Node.js, Express.js).
- Integrated user-facing elements in the front-end with server side logic in the back-end.
- Created and maintained database schemas for the app (Firebase firestore NoSQL).

Flower City Arts Center, Rochester NY – *Graphic Design Intern*
SPRING 2018 - PRESENT

- Designed marketing materials for various events and classes at the art center.
- Updated the website/blog for the most current events and classes.
- Took photos for events and classes for documentation and helped with organizing youth programs.

University of Rochester Chemistry Department, Rochester NY – *Full-Stack Web Developer*
SPRING 2018 - PRESENT

- Worked on overhauling the front-end of the website (CSSGrid, CSS Flexbox, Bulma.css).
- Refactored and managed the back-end system for the website (PHP).
- Managed and maintained website database (MySQL).

University of Rochester IT Services, Rochester NY – *Desktop Support Technician*
FALL 2017 - PRESENT

- Assisted with network registration and troubleshoot wireless and wired network issues.
- Troubleshoot NetID and login issues.
- Provided support via a variety of methods including walk-in, telephone and chat.
- Assisted with various types of malware on personal computers.
- Provided general desktop support for various issues.

Media Prima Digital, Petaling Jaya, MALAYSIA – *Mobile Engineering Intern*
SUMMER 2017

- Worked to optimize pages for better load speeds and better SEO rankings.
- Trained in both front end and back end systems (React, Laravel, PHP, MySQL, WordPress).
- Worked with front-end frameworks such as React and Laravel for building web and mobile applications.
- Worked with Robot Framework (with Selenium driver) to automate web page testing.
